

# State of Gentoo Infra

Who runs that box anyway?

Robin H Johnson <[robbat@gentoo.org](mailto:robbat@gentoo.org)>

Gentoo Infrastructure

Gentoo Miniconf Prague  
2012/10/20

- 1 Introduction
- 2 Overview
- 3 Git Migration
- 4 Web-facing world

# Team

<b>Who</b>	<b>What</b>
robbat2	Manager, Sysadmin
idl0r	Bugzilla, Sysadmin
darkside	Mirrors, WebApps
tampakrap	Senior Mirror admin, Sysadmin
antarus	Sysadmin
a3li	Sysadmin/security
<i>armin76</i>	Releng liaison
<i>halcy0n</i>	Mirrors
<i>craig</i>	Sysadmin
<i>kingtaco</i>	Manager

# Getting Involved

- Infra needs new blood
- How can we make it easier?
- Concerns in trust
  - Repo/Releng security
  - Impartial!
  - Avoiding power abuse
- Assigning vs. volunteering

# Hardware

Where	Count
EU	21
US	20
Canada	7
Asia	0
Oceania	0
South America	0
<b>Total</b>	<b>48</b>

- Infra only, not dev machines
- Demand in more continents

# Git Migration: History

- 2006: GSoC proof-of-content by antarus
- 2008-2010: various plan iterations
- 2010: GSoC mentor summit discussion
- 2011: Git development: Signing & Bugfixes
- 2012: Can it happen?

# Git Migration: Iteration

- Do {
  - Update conversion
  - Update validation
  - Convert
  - Validate
- } while(validation fails)
- Lock read-only
- Convert & Validate
- Cleanups
- Make it so!

# Git Migration: Cleanups

- Thin manifests
- Graft point
- Sign tip-of-tree

# Git Migration: TODO

- Validation
  - Until recently, only by hand at random
  - rich0's ongoing development
- Git Hooks
  - Push too large
  - Push unsigned, invalid sig
- Merge policy...
- Infra CVS->Rsync s/CVS/Git/
- MetaManifest GLEP?

# WWW nodes

- Originally in Los Angeles
- Two presently, in UK
- Source material (GuideXML) superb
- Build system painful (gorg)

# WebApps

- Bugzilla
- Forums
- Wiki
- Packages
- Bouncer
- ...
